Instructions for Digital Resource

How does this digital resource work? It's a series of Google Forms™ that students can fill out to practice their word work skills. Once they hit submit, they are able to see the answers so they can self-check their work. It also grades it for the teacher!

If you haven't created a free Google account, you will need to do that before beginning to use this digital resource. Each student does not need to have a Google account. You can simply have the form open in your account since they will attach their name on each form. You can also assign the form in Google Classroom by using the link for the form.

You will need to save a copy of the forms on your own Google Drive, and then you can edit the copy if you choose. The original file is set to "FORCE COPY" so you can't edit the original one.

Click the link below for a video overview of how this resource works.
